PLAN

This document affirms my commitment to security for my cryptocurrency.

I will protect my cryptocurrency from theft, loss, and other potential disastrous outcomes by **making security my priority.**

By doing so, I will be able to trade and invest in cryptocurrency without having to worry about my funds being lost.

My Commitments:

I Understand That Security Is Not Passive --- It Requires Active Management To Be Secure

I Understand That I Will **NEVER** Give My Private Keys To Anyone Unless I Would Also Trust Them With My Most Sensitive Information

I Understand That If A Thief Or Hacker Somehow Acquired My Private Key, My Cryptocurrency Would Be Gone **Forever** With No Hope Of Recovery

I Understand That I Should Never Trust Anyone Whom I Do Not Personally Know --- If It Sounds Too Good To Be True, It Is.

I Understand That I Should Never Disclose My Wallet Balances Online For Any Reason --- This Can Make Me A Target.

I Understand That I Should Get As Much Of My Cryptocurrency Off Exchanges As Possible.

I Understand That I Should Always Be Alert For Phishing Attempts.

I Understand That I Should Encrypt My Software Wallets.

I Understand That I Should Backup My Software Wallets.

I Understand That If I Forget My Encryption Password Or Lose All My Backups My Cryptocurrency Is Gone **Forever.**

I Understand That I Should Split Up Large Stacks Of My Cryptocurrency To Prevent A Single Point Of Failure --- If I Have Lots Of Eggs, I Should Have More Than One Basket

I Understand That Transactions In Cryptocurrency Are **Final**, And That I Need To Double Check All Transactions To Make Sure I Don't Lose My Cryptocurrency

I Understand That Cryptocurrency Is Not The Most User-Friendly, But In Time This Will Improve. Until Then I Will Do The Best I Can.

I Understand I Need To Create And Adhere To **MY** Security Plan --- My Circumstances Are Unique And So Is My Security Plan
